UP AND AWAY

A Semroc Saturn 1B, built by rocketeer Paul Kinzer and powered by four motors, lifts off from a grassy field in New Berlin, Wisconsin last June. The occasion was a regular club launch sponsored by the Wisconsin Organization of Spacemodeling Hobbyists (WOOSH), a section of the National Association of Rocketry. The NAR will hold its 50th annual meeting July 26–August 1 at The Plains, Virginia. (For details, visit www.naram.org.) To order a kit of the Saturn 1B seen here, visit www.semroc.com. For information about WOOSH and the club's launch schedule, go to www.wooshrocketry.org.
