Decal #36863

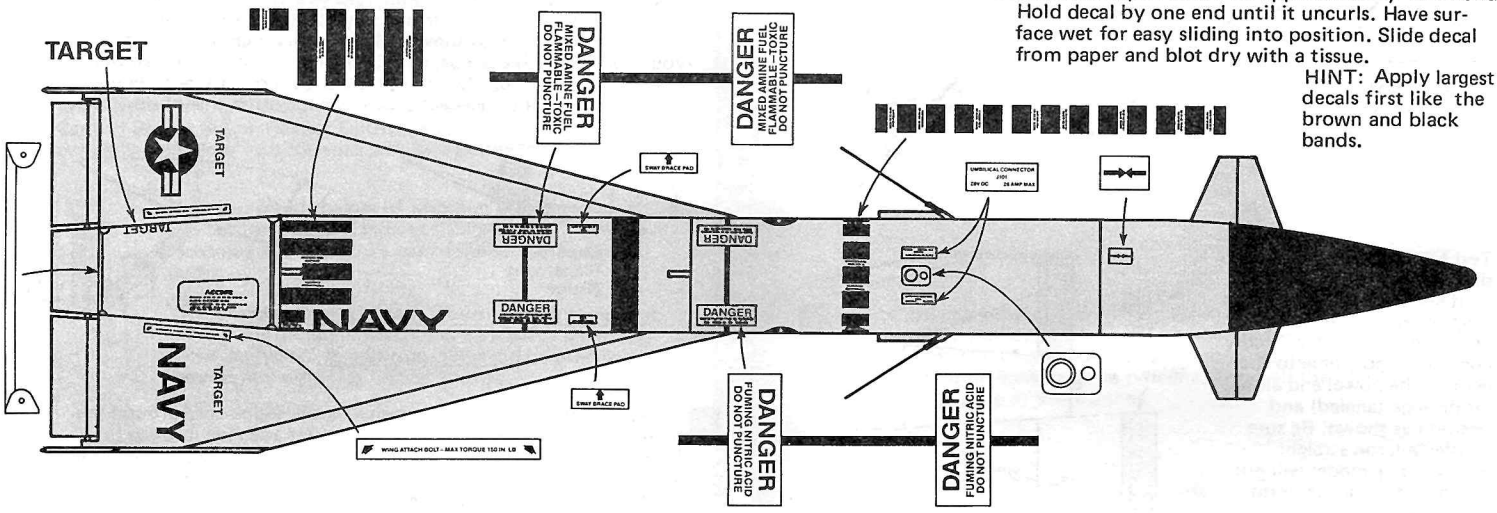

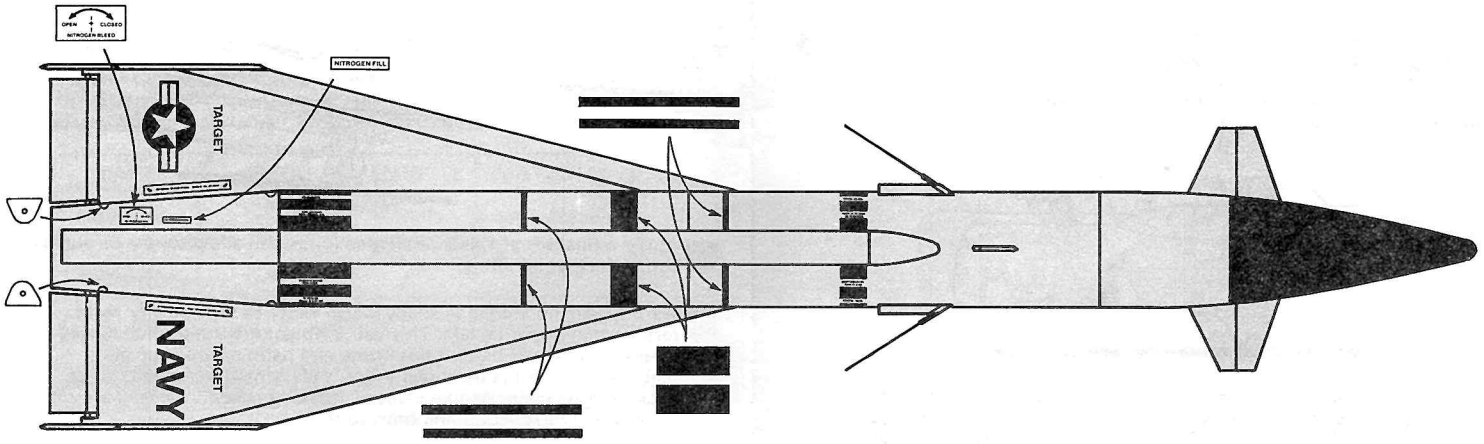

Decal #36862

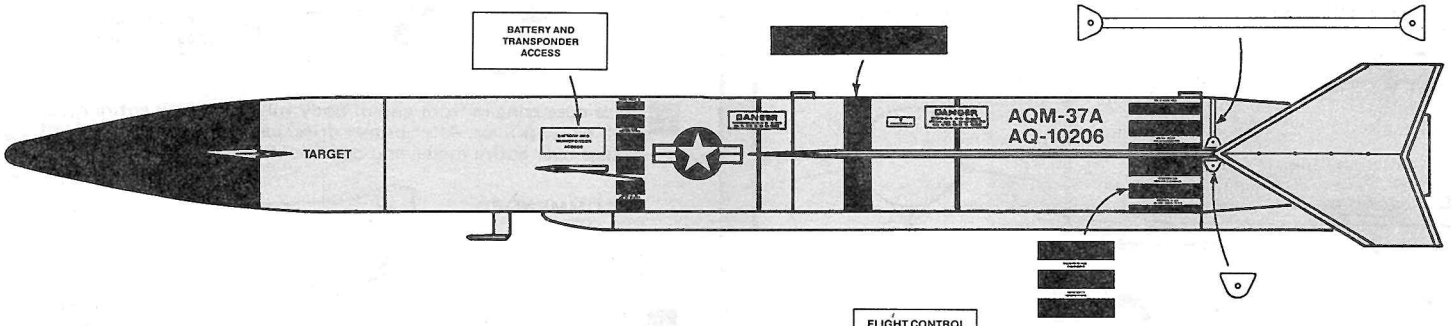

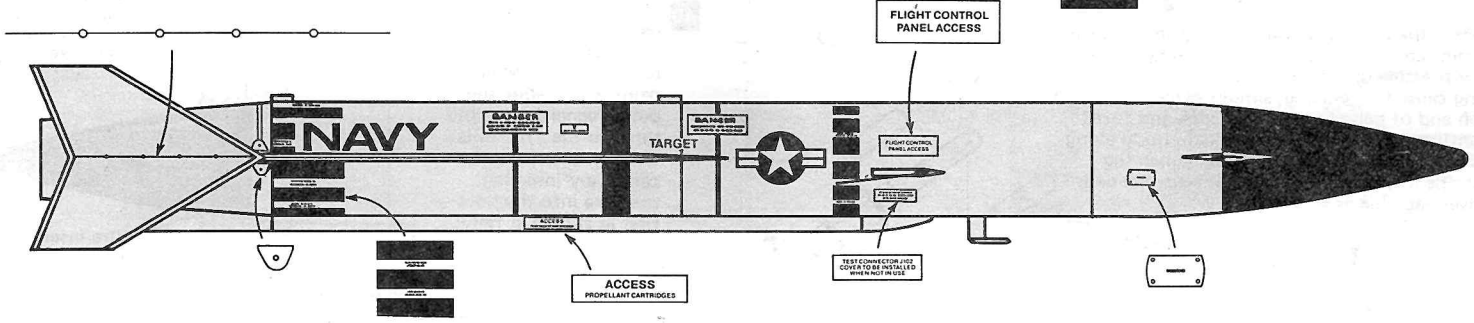

After the paint is dry apply the decals. Make sure surface is free of oil and dust. Cut each decal from sheet and dip in water for approximately 10 seconds. Hold decal by one end until it uncurls. Have surface wet for easy sliding into position. Slide decal from paper and blot dry with a tissue.

HINT: Apply largest decals first like the brown and black bands.
